Saudi Arabia – Value Added Tax increases to 15%.

The government of Saudi Arabia has announced that the Value Added Tax (VAT) rate will increase from 5% to 15%, effective from 1 July 2020. All other regulations related to the applicability of VAT, as well as VAT filing and payment processes, will remain unchanged. The increase in the VAT was announced as a part of the government's efforts to rebalance the state budget and counter the revenue shortfall caused by COVID-19 pandemic.

In addition to the increase of the VAT rate, the government has announced the discontinuation of the cost-of-living allowances paid to civil servants, effective from 1 June 2020. Also, a ministerial committee has been established to study the financial benefits paid to all employees, contractors and those of similar status whom are not subject to Civil Service Law in government ministries, institutions, authorities, centers, and programs, and present its recommendations within 30 days.
